

From: Bob Rinker
To: Bill Rigby
Date: 12/21/2009 10:54 AM
Subject: Statement #s 428 and 429

Bill,

Got a call from Mr. Johnston wondering why he didn't get his statements to file. Looked on the eWRIMS and found him inactive due to returned mail. He has a new address:

Denver Johnston
PO Box 76
Scott Bar, CA 96085

He wants to know if the inactive status would cause him a problem, I told him I didn't know and either you or I would get back to him. His phone # is 530-496-3500. If you can't get back to him let me know what the status is, if he can file now with a new address to send the forms to and anything else I should pass to him and I will call him back.

Also, can you update the database with the new information or should I?

let me know,

Bob Rinker
Division of Water Rights
Fee & Data Management Manager

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriative right is required for use of water on non-riparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914, new appropriators have been required to obtain a permit and license from the State. Appropriative rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.
